

RAINWATER HARVESTING AWARENESS PROGRAMME

The NSS unit of Bharathidasan Government College for Women organised the Rainwater Harvesting Awareness Programme on 27th August 2019. Dr. K. Subramani, Principal of the college, took measures to renovate the existing 16 rainwater harvesting shafts. Rainwater is accumulated from the roofs of the buildings in college premises through a connected pipeline and it is further redirected to a deep pit filled with pebbles and sand for purification process. The Principal along with the students took the pledge to save rain water. It is followed by his speech to students on implementing the same in their house and also to create awareness about it to the villages in and around.

Dr. V. Selvaperumal, NSS Programme Officer, organised the awareness programme. Dr. K. Suresh, IQAC Co-ordinator took part in the programme.
